CT4101 Machine Learning: Milestone 2 Assistance Declaration

Sara Bartolo, Student ID: 26231906,

Repository: https://github.com/sarabartolo/harth-free-living-activity-recognition.git

Generative AI: I used Claude to plan each milestone, explain unfamiliar concepts and tools, explain errors, review my code, and to draft parts of the documentation. I made all project decisions, wrote the audit, preprocessing functions, train/test split and results code myself, and checked and edited all AI-assisted work. A dated record is in ai_use_log.md.

External code: none.

Collaboration: none.
